Here's the **green list** that you might aspire to:

1. Live at a central location near all amenities you desire.
2. Compost - most things can end up this way.
3. Get all bills sent electronically.
4. Use wind-up torches.
5. Get rechargeable batteries for digital cameras.
6. Drive a fuel efficient vehicle.
7. Use a programmable thermostat to automatically turn down the heat at night.
